- We see the benefits of such a program providing a balanced variety of nutritious snacks.
- The program would require that each family sign up with Ellsworth Food Service and receive a pin number to track Food Service payments and usage. \* **Please note if you sign up your child will receive snack each day they are in school and be charged.** They would not be charged on days they are absent. You have one account per family so if you have other children it is all in the same account.
- **IMPORTANT:** If you receive free or reduced lunch snack is NOT covered under this program. You will be required to pay the daily fee.
- All students receive (4) ounce milk daily if they choose to at no charge.
