

## EMS Art Power Standards 6<sup>th</sup> Grade

### Standard 1. Creates drawings using spatial relationships, texture and value.

Advanced(AD)	Proficient(PR)goal	Developing(DE)	Beginning(BE)
I effectively and with exceptional care apply all drawing concepts and skills stressed in the project using complex and sophisticated applications.	I make informed and accurate usage of drawing concepts, techniques and skills stressed in the project	I apply some of the drawing concepts and skills used for the project. I need to practice and improve upon these skills	I used, but did not properly apply the drawing concepts and skills expected for the project. I need to practice and take more time to learn the skills.

### Standard 2. Demonstrates color mixing through the painting process.

Advanced(AD)	Proficient(PR)goal	Developing(DE)	Beginning(BE)
I effectively and with exceptional care apply all painting concepts and skills stressed in the project using complex and sophisticated application	I make informed and accurate usage of painting concepts and skills stressed in the project.	I apply some of the painting concepts and skills used for the project. I need to practice and improve upon these skills	I used, but did not properly apply the painting concepts and skills. I need to practice and take more time to learn the skills expected for the project.

### Standard 3. Creates clay sculpture focusing on design and technique.

Advanced(AD)	Proficient(PR)goal	Developing(DE)	Beginning(BE)
I effectively and with exceptional care apply all sculptural concepts and skills stressed in the project using complex and sophisticated application	I make informed and accurate usage of sculptural concepts and skills stressed in the project	I apply some of the sculptural concepts and skills used for the project. I need to practice and improve upon these skills.	I used, but did not properly apply the sculptural concepts and skills. I need to practice and take more time to learn the skills expected for the project.

### Standard 4. Demonstrates the understanding of the design elements related to projects.

Advanced(AD)	Proficient(PR)goal	Developing(DE)	Beginning(BE)
A professional level of unity was achieved in regards to how the elements and principles of design were used and developed within the work.	The work appears unified with few distractions. The elements and principles of design were used, but could have been pushed to the next level.	The artwork feels disconnected. A unified, finished piece is not achieved in all cases.	The art work lacks unity. It does not look pleasing and does not have good design.
